

## Photoshop CS2: Advanced

### **Duration:**

One day

### **Description:**

This ILT Series course builds on the concepts and skills taught in Adobe Photoshop CS2: Basic. Students will learn how to create and use masks and vector paths, and how to create fills and overlays to enhance images. Course activities also cover automation of repetitive tasks. In addition, students will learn how to apply creative special effects to both images and text. The manual is designed for quick scanning in the classroom and filled with interactive exercises that help ensure student success.
